

AIR FILTERS

HIGH-PERFORMANCE ENGINE
AIR FILTERS
FOR IVECO APPLICATIONS

**PROVEN PROTECTION.
RELIABLE FIT.**

REMOVES UP TO
99,98%
OF AIR
CONTAMINANTS

HIGH-PERFORMANCE FILTRATION EFFICIENCY

Donaldson Blue™ technology helps protect engines by removing 99.98% of air contaminants entering the air intake system.

OE-EQUIVALENT FIT & FUNCTION

Designed for Iveco truck applications, the DBA0504 and DBA0505 provide reliable fit and coverage across a wide range of applications.

EXTENDED MAINTENANCE SUPPORT

Longer filter life and low initial pressure drop help support efficient operation, service planning, and uptime.

TRUSTED BY OEMs

— helping customers choose
replacement filters with
confidence.

PARTS OVERVIEW

Donaldson Part Number*	Description	OE Part Number
DBA0504	AIR FILTER, PRIMARY OBROUND POWERCORE ULTRA-WEB - SHORT	42554488, 42558096
DBA0505	AIR FILTER, PRIMARY OBROUND POWERCORE ULTRA-WEB - LONG	42554489, 42558097

Choosing Donaldson filters, or OE-manufactured parts produced by Donaldson, helps to ensure your engine system receives high levels of protection and performs in line with OEM specifications.

Non-genuine or copy parts can expose engines to harmful contaminants, increasing the risk of damage to turbochargers, injectors, pistons, and other critical components. They may also reach contamination capacity faster, resulting in shorter service intervals, more maintenance, and increased downtime.
