MESSAGE FROM THE CHIEF EXECUTIVE OFFICER

At E K Bonsu Limited (EKBL), our journey has been guided by one unwavering principle: **Quality First, As Always.**

From humble beginnings to our position today as a trusted partner to mining, industrial, automotive, and energy-related operations, our focus has remained clear, delivering reliable, safe, and value-driven solutions that keep our clients operational, competitive, and future-ready.

Our success is founded on strong partnerships, deep technical competence, ethical leadership, and an uncompromising pursuit of excellence.

We conduct business the right way, with integrity, accountability, and genuine respect for people, safety, and the environment.

As we continue to expand across Ghana and the wider West African sub-region, we remain firmly committed to innovation, sustainability, and long-term value creation for our customers, partners, employees, and the communities within which we operate.

Ernest Kojo Bonsu

Chief Executive Officer

BRIEF HISTORY OF THE FOUNDER

The Founder of **E K Bonsu Limited (EKBL)**, **Mr Ernest Kojo Bonsu**, is a visionary entrepreneur whose life journey of resilience, faith, discipline, and hard work laid the foundation for the Company's success.

Born in the early 1970s to **Mr Kwame Bonsu** and **Madam Alice Yeboah**, Mr Bonsu began his basic education at **Gyedu L/A Primary School** in the then Brong Ahafo Region. He continued his schooling at **Ahmadiyya Preparatory School, Ashanti New Town L/A Middle School** in Kumasi, and later **Achiase L/A Middle School**, where he obtained his **Middle School Leaving Certificate (MSLC)** in 1987.

From an early age, he combined formal education with modest income-generating activities such as cobbling, car washing, and petty trading. These early experiences nurtured his sense of responsibility, financial independence, and strong work ethic.

After completing middle school, he relocated to **Tamale**, where he gained practical work experience:

- As a **Store Assistant** in his uncle's alcoholic beverage distribution business
- As a **Fuel Pump Attendant** at a Shell Service Station, where he worked for approximately three years

Seeking broader exposure and skills development, Mr Bonsu later travelled to **Germany**, where he worked across several sectors, including:

- Restaurants
- Cleaning services
- A vulcanising company, where he acquired valuable technical skills that would later influence his entrepreneurial pursuits

In **1993**, he married **Mrs. Doris Tuffour Bonsu**, and together they have been blessed with six children: **Kelvin Agyemang Bonsu**, **Henry Tuffour Bonsu**, **Priscilla Serwaa Bonsu**, **Prince Kwaku Bonsu**, **Jemima Tiwaa Bonsu**, and **Roland Agyei Bonsu**.

Mrs. Bonsu has played a **pivotal and unwavering supportive role** in the growth and success of the business, exemplifying the timeless adage that *"behind every successful man stands a strong and supportive woman."*

Upon his return to Ghana in **1994**, Mr Bonsu began work as a taxi driver within his second week of arrival. After approximately one year in commercial driving, and guided by faith, discipline, and unwavering ambition, he laid the foundation for what has today evolved into **E K Bonsu Limited**.

His story remains a powerful testament to what determination, humility, perseverance, and hard work can achieve, and it continues to inspire the culture and values that define EKBL.

WHO WE ARE

E K Bonsu Limited (EKBL) is a Ghanaian-owned company specialising in the importation, sales, servicing, and distribution of high-quality automotive, hydrocarbon, pneumatic, and industrial solutions.

We support clients across the mining, construction, industrial, automotive, marine, and energy sectors, delivering dependable products, strong technical expertise, and responsive after-sales support.

Our solutions are designed to reduce downtime, optimise operational costs, and enhance efficiency, safety, and asset reliability for our customers.

LEGAL PROGRESSION OF THE BUSINESS

Business Stage	Name	Status & Date
Sole Proprietorship	E K Bonsu Enterprise	Registered – April 1995
Limited Liability Company	E K Bonsu Ent. Limited	Incorporated – February 2005
Limited Liability (Re-registration)	E K Bonsu Limited	Renamed – September 2014

OUR NAME & PHILOSOPHY

The name “**Bonsu**,” derived from the Akan language, refers to a **whale**, a creature symbolising strength, endurance, and significance. In the biblical account of Jonah, the whale served as an instrument of preservation and safe deliverance.

In the same spirit, EKBL was founded on the principles of **safety, preservation, and reliability**. Just as the whale delivered Jonah safely, EKBL is committed to “*bringing customers home*” by delivering quality products and dependable services that protect customer operations, assets, and people.

This philosophy underpins our corporate principle:

Quality First, As Always and our enduring promise:

Built on Quality. Trusted for Life.

HOW THE COMPANY STARTED

The Company began as a small **car accessories shop in Obuasi**, operating for approximately two years. During this period, road construction activities within the township adversely affected business operations, creating significant operational and financial challenges.

Rather than giving up, the Founder demonstrated resilience and adaptability by:

- Expanding business reach between **Obuasi and Kumasi**.
- Introducing **door-to-door deliveries** to mining companies and other clients
- Using **public transport ("trotro") and taxis** to deliver products before acquiring a delivery vehicle

In mid-1998, the Company secured a shop at **Suame Magazine**, which served as EKBL's operational office and Head Office until **November 2015**.

Guided by the belief that *"every trial is an opportunity and every difficulty is a challenge,"* the Company grew stronger through adversity rather than being limited by it.

Today, EKBL has evolved into a **respected and trusted brand**, delivering automotive, hydrocarbon, pneumatic, and industrial support solutions to individuals, institutions, and leading mining companies across Ghana.

Sectors We Serve

- Mining, Drilling & Construction
- Industrial Plants (Steel, Cement, Food & Beverage)
- Automotive & Fleet Operations
- Forestry & Heavy Equipment
- Garage & Workshop Facilities
- Marine, Harbour & Port Operations
- Oil, Offshore & Energy Support Services

WHAT WE DO

Hydrocarbon & Pneumatic Solutions

- Auto-lubrication systems
- Hydraulic hoses, fittings, and assemblies
- Bulk fuel and lubrication handling systems
- Pneumatic tools and accessories
- Fire suppression and safety systems

Automotive Sales & Services

- Vehicle sales and fleet solutions
- Preventive and corrective maintenance
- Diagnostics and major overhauls
- Genuine spare parts supply

General Industrial Products

- Filtration solutions
- Bearings and rotating equipment
- Tyres
- Personal Protective Equipment (PPE)
- Aftermarket spare parts and consumables

OPERATING MODELS

1. Direct Sales & After-Sales Support (DSA)
2. Consignment Stock Agreements (CSA)
3. Fixed Price Agreements (FPA)
4. On-Site Service Solutions (OSS)
5. Offshore & Indent Sales (OIS)
6. Repairs, Maintenance & Refurbishments (RMR)
7. Sales, Leasing & Hiring of Vehicles (SLH)

AUTHORISED DISTRIBUTIONS & PARTNERSHIPS

- Alfagomma Group – Hydraulic Hoses & Fittings
- Graco Manufacturing Company – Fluid Management Products
- SKF – Bearings, Steering, Suspension & VSM Solutions
- Donaldson Filtration Solutions – Filtration Products
- Pri-Safety Manufacturing Co. – Fire Suppression Systems

-

WHY CHOOSE EKBL

- Proven track record across Ghana and West Africa
- Strong inventory capacity and resilient supply chains
- Highly experienced technical and service teams
- Trusted partnerships with leading global OEMs
- Customer-focused, safety-driven, and results-oriented execution

OUR JOURNEY

Founded in 1996 in Obuasi, Ghana, EKBL began as a small automotive business.

Through resilience, innovation, and a customer-first mindset, the Company has grown into a multi-sector solutions provider supporting nearly all major mining companies in Ghana, alongside industrial and automotive clients across the region.

WHERE WE ARE TODAY

- Modern warehouse with inventory exceeding USD 6 million
- Fully equipped service centre supporting 150+ vehicles per month
- Dedicated delivery fleet for nationwide and on-site operations
- Decades of expertise in importation, inventory management, and technical support

OUR SLOGAN

BUILT ON
QUALITY
TRUSTED
FOR LIFE

OUR PHILOSOPHY, PROMISE & COMMITMENT

OUR PROMISE

Unmatched quality, reliability, and genuine service in every engagement.

CUSTOMER COMMITMENT

Reducing costs, enhancing performance, and improving productivity through solutions that exceed expectations.

OUR COMMITMENT

Continuous investment in people, technology, innovation, and strategic partnerships to deliver results that endure.

OUR VISION

To be a world-class supplier and a leading support services provider across Africa, delivering sustainable value through integrity, innovation, and excellence.

OUR MISSION

To serve our clients with genuine, high-quality products and professional services at competitive prices, supported by strong technical expertise and long-term customer partnerships that foster trust and operational efficiency.

OUR VALUES [RIGHT]

- ✧ Reliability – Consistency you can trust.
- ✧ Integrity – Upholding strong ethical principles.
- ✧ Genuineness – Authenticity in all our dealings.
- ✧ Humility – Respectful service to clients and communities.
- ✧ Team Spirit – Collaboration that drives results.

OUR PHILOSOPHY

Quality is not an act;
It is our **Culture**.

CORPORATE SOCIAL RESPONSIBILITIES

EKBL is committed to responsible corporate citizenship and sustainable development through:

- **Educational Support:** Scholarships and assistance for brilliant and needy students
- **Social Welfare:** Monthly support for the aged, persons with disabilities, and vulnerable groups
- **Skills Development:** Apprenticeship and technical training programmes
- **Sports & Community Engagement:** Sponsorship of sporting and community events, including golf and youth sports
- **Community Development:** Initiatives that promote local economic growth and empowerment

HEALTH, SAFETY AND ENVIRONMENTAL (HSE)

At E K Bonsu Limited, protecting the health and safety of all stakeholders and preserving the environment in which we operate are top priorities.

We are committed to achieving zero accidents and injuries through our “Safety from the Start” approach. To this end, EKBL pledges to:

- Provide necessary safeguards and safety infrastructure
- Supply Personal Protective Equipment (PPE) and regular safety training
- Develop, update, and enforce safety and health policies
- Investigate and act promptly on all reported safety incidents

Management is responsible for maintaining a safe work environment, and every employee is expected to:

- Practice good housekeeping
- Participate in safety training sessions
- Report hazards and incidents promptly
- Use PPE and follow safe work practices

Every team member is accountable for exercising sound judgment to prevent injuries. At EKBL, Health and Safety are at the heart of everything we do.

HEALTH

OUR KEY BRANDS

TOYOTA

Toyota is one of the largest automobile manufacturers in the world.

ALFAGOMMA

Alfagomma is a market leader in industrial and hydraulic fluid handling systems for the most severe underground and surface mining.

Pri Safety is a professional manufacturer of automatic fire suppression systems, fire extinguishers and safety products.

DICSA

Dicsa designs and manufactures stainless steel fittings and the distribution of hydraulic and pneumatic components.

SKF is a world leader in manufacturing and supplier of bearings, seals and power transmissions.

BF Goodrich is a quality tyre brand in the world.

Donaldson, leader in filtration solutions.

Graco is one of the world's leading suppliers of fluid management products.

Balflex produces comprehensive range of hoses, fittings, flanges, adaptors and quick connectors.

Lincoln Lubrication is one of the prominent brands in lubrication systems.

ST Hydraulics & Engineering manufactures and distributes hydraulic components.

Michelin is a quality tyre brand in the world.

**RANGE
OF
SERVICES**

OUR OPERATING MODELS

At E K Bonsu Limited (EKBL), we understand that every client's operations are unique. That's why we deliver our products and services under flexible contractual agreements, each designed to align with the specific operational requirements of our customers. Our service models ensure efficiency, reliability, and value from procurement to after-sales support.

Direct Sales and After-Sales Support

EKBL maintains a comprehensive inventory of spare parts and supply components, including:

- Filters, belts, brake pads, brake shoes, seals, engine overhauling kits, starters, alternators, transmissions, body parts, electrical parts, suspension components, and even bolts and nuts for **Toyota** and other major vehicle brands.
- Hydraulic hoses and fittings, fire suppression and extinguisher systems, auto-lubrication components, filters, tyres, batteries, and more.
- Bearings, machine parts, light- and heavy-duty truck components, and other general goods.

For parts not in stock, we source them **locally** or **import** them through express services (e.g., DHL, air freight, or sea freight) based on client requirements. We also supply **mining-specification accessories** such as PPEs, electrical parts, bull bars, side steps, roof racks, and more.

Our advanced **Electronic Parts Catalogue (EPC)** ensures compatibility and traceability by processing all part numbers with precision.

Consignment Stock Agreement

To guarantee availability and reduce downtime, EKBL maintains sufficient stock of critical components, including Toyota parts, filters, tyres, tubes, and other essential items, directly at **client premises**.

This model ensures at least 90% availability of agreed items for exclusive use in the client's fleet and equipment. It eliminates the need for time-consuming market sourcing and ensures that only **genuine, high-quality parts** are supplied when needed.

Offshore and Indent Sales -(West & Central Africa)

Our services extend beyond Ghana. EKBL provides offshore sales and service delivery to customers across West and Central Africa, ensuring the same high-quality standards and reliable supply chain support for all our products and services.

Fixed Price Agreements

Under fixed-price supply contracts, EKBL delivers parts to client-specified locations based on purchase orders at pre-agreed prices. This model provides cost predictability, budget control, and simplified procurement for our clients

On-Site Service Solutions

Our team of experienced engineers and technicians provides comprehensive on-site maintenance and project support, from pre-award planning through to execution and completion.

We offer expertise in:

- Vehicle maintenance and servicing
- Mobile maintenance operations
- Service truck deployment
- Workshop setup and installation
- Greasing and oil pump services & repairs
- Pipe works and oil evacuation lines
- Fabrication and custom engineering
- Oil metric installation

All maintenance activities are carried out in close consultation with the client's designated manager or representative and are performed on-site unless otherwise authorized. Every project is inspected and verified to ensure it meets our strict quality, safety, and performance standards.

Sales, Leasing, and Hiring of Vehicles

EKBL supplies a wide range of high-quality Toyota vehicles and other reputable brands at competitive prices. Upon order confirmation, we supply or ensure timely delivery in line with agreed schedules.

In addition to direct sales, we also offer leasing and rental solutions tailored to specific client categories, allowing businesses to access reliable transportation without heavy capital investment.

Repairs, Maintenance, and Refurbishments

At E K Bonsu Limited (EKBL), our vehicle maintenance philosophy is centred on **preventive care, continuous monitoring, and condition-based maintenance**. This approach is designed to minimise breakdowns, extend the **service life** of vehicles and ancillary equipment, and ensure **safe, reliable performance** at all times.

Our fully equipped workshop offers a complete range of services, including:

- Major and minor repairs
- Comprehensive servicing and diagnostics
- Electrical system inspections and repairs
- Bodywork and body care services
- Upholstery refurbishment
- Full engine overhauls and component replacements

In addition to routine maintenance, we also offer **vehicle refurbishment** services, restoring vehicles to excellent operational condition. Every vehicle leaving our facility undergoes a rigorous **Quality Assurance / Quality Control (QA/QC)** process to ensure it meets the **highest safety, performance, and reliability standards**, giving clients complete confidence in their fleet.

Hydrocarbon and Pneumatic - Related Solutions

EKBL provides specialised hydrocarbon and pneumatic system support designed to optimise equipment performance, extend component life, and reduce operational costs. Our expertise covers a broad range of integrated solutions, including:

1. Fleet Maintenance Contract & Onsite Parts Support

We offer full-service fleet maintenance and parts support packages that allow clients to focus on their core operations while we manage the health and performance of their fleet. Benefits include:

- Fixed budgets for preventive maintenance and repairs

- Implementation of lifetime cost programs for scheduled maintenance
- **Repair Before Failure (RBF)** strategies to reduce downtime
- Full **fire suppression system** control, monitoring, and maintenance
- **Parts exchange programs** to optimise inventory and costs
- Supply and installation of grease/oil pumps, fuel guns, and related equipment
- Complete **fire suppression system installation**, commissioning, and handover
- Continuous **supply of genuine hoses, fittings, and components**

2. Labour Supply Package

Our highly skilled, certified technicians provide comprehensive on-site support to ensure the highest service standards. This model includes:

- Fixed labour cost budgeting
- 24/7 on-site service support
- Technical advisory and consultancy services
- Detailed repair history documentation for improved asset management

3. Preventive Maintenance Package

Our preventive maintenance programs are designed to minimise repair costs and reduce unplanned downtime. Features include:

- Fixed budgeting for preventive maintenance
- Service schedules aligned with manufacturer-recommended intervals
- Reduction in unnecessary repairs and operational disruptions
- Comprehensive service history records for improved lifecycle planning

✓ With these tailored solutions, E K Bonsu Limited ensures that your vehicles and equipment are maintained at peak operational performance, increasing reliability, safety, and cost-efficiency while reducing downtime and extending asset life.

PRODUCT CATEGORIES & SOLUTION OFFERINGS

At EKBL, we deliver integrated, high-quality solutions that maximise uptime, safety, and lifecycle value across mining, industrial, automotive, construction, marine, and energy operations.

 **Toyota** – Genuine Spare Parts, Vehicles & Services
Genuine Toyota Spare Parts
OEM components engineered to exact specifications.

Key categories supplied

- Engine, braking, suspension & steering systems
- Electrical and cooling systems
- Drivetrain and wear components

Why genuine matters

- Exact fit, longer service life
- Lower total cost of ownership
- Proven performance in harsh African conditions

Toyota Vehicles

Common models supplied include:

- Land Cruiser 70/79 • Hilux • Prado
- Hiace • Coaster • Fortuner • Corolla

Toyota Vehicle Services

- Preventive maintenance
- Diagnostics
- Major overhauls
- On-site & mobile support

Integrated Fleet Solution:

Vehicles + Genuine Parts + Professional Services
= Maximum uptime

Hydraulic Hoses & Fittings

Balflex • Alfagomma • DISCA • ST Hydraulics

High-pressure fluid power solutions with full assembly, testing, and quality assurance.

Auto-Lubrication Systems

Graco • Lincoln

Centralised lubrication systems that improve reliability, safety, and component life.

Fire Suppression Systems & Fire Extinguishers **PRI Safety**

Automatic and portable fire protection systems for mining, industrial, and mobile equipment.

Filtration Solutions

Donaldson

Advanced air, fuel, oil, hydraulic, and industrial filtration solutions.

Bearings & Rotating Equipment

SKF

Complete reliability solutions for rotating equipment and predictive maintenance.

Aftermarket Spare Parts

Cost-effective alternatives for high-usage and ageing fleets.

Tyres

Solutions for light vehicles, heavy trucks, and off-road equipment.

Personal Protective Equipment (PPE)

Certified safety apparel and protective gear.

Industrial Tools

Durable hand, power, hydraulic, and pneumatic tools.

Vehicle Accessories

Safety, utility, off-road, and mining-specific enhancements.

EKBL VALUE PROPOSITION

By combining genuine products, engineered systems, and professional technical support, E K Bonsu Limited delivers:

- ✓ Maximum uptime
- ✓ Improved safety
- ✓ Lower lifecycle costs
- ✓ Reliable performance in harsh operating environments

AUTOMOTIVE SALES & SERVICES

HYDROCARBON & PNEUMATIC RELATED SOLUTIONS

HYDRAULIC HOSES AND FITTINGS

Balflex • Alfagomma Group • DISCA • ST Hydraulics

Complete hose, fitting, and assembly solutions for mobile, mining, and industrial equipment.

BALFLEX – HYDRAULIC HOSES & FITTINGS

Balflex is a globally respected manufacturer of high-performance hydraulic hoses, fittings, and couplings.

ALFAGOMMA – HYDRAULIC & INDUSTRIAL HOSES

Alfagomma is a world leader in **hydraulic and industrial fluid handling systems**, known for innovation and OEM approvals.

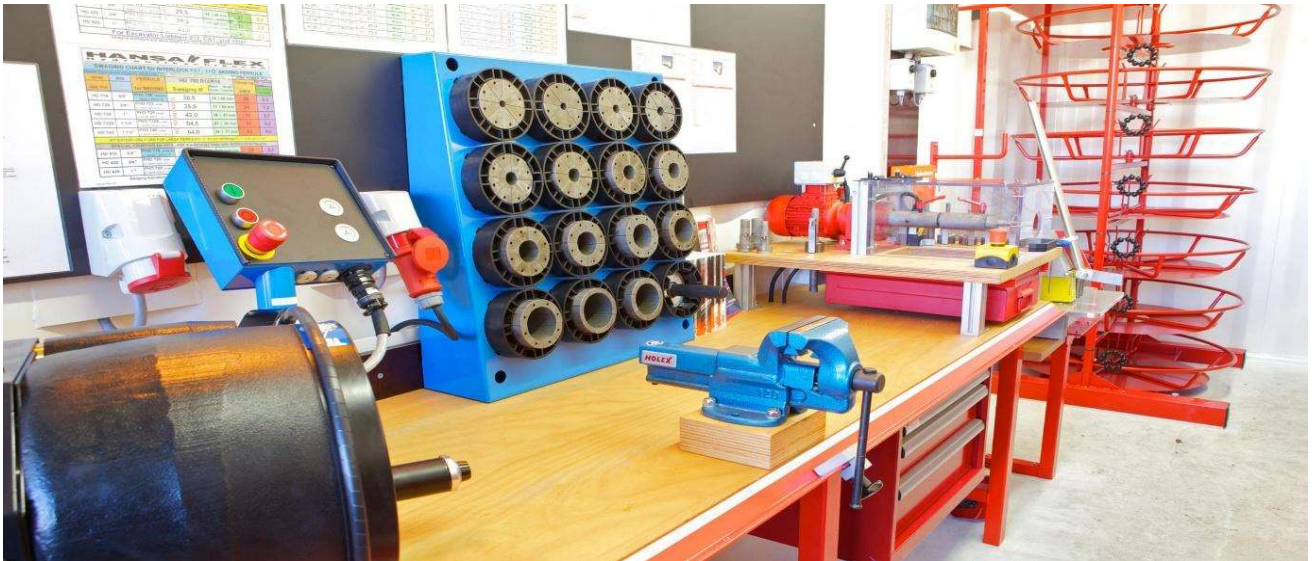

DISCA – HYDRAULIC HOSE & FITTINGS SUPPLY

DISCA specialises in the **supply and distribution of hydraulic hoses, fittings, adapters, and accessories**, supporting fast turnaround and system compatibility.

ST HYDRAULICS – ASSEMBLY, CRIMPING & SUPPORT

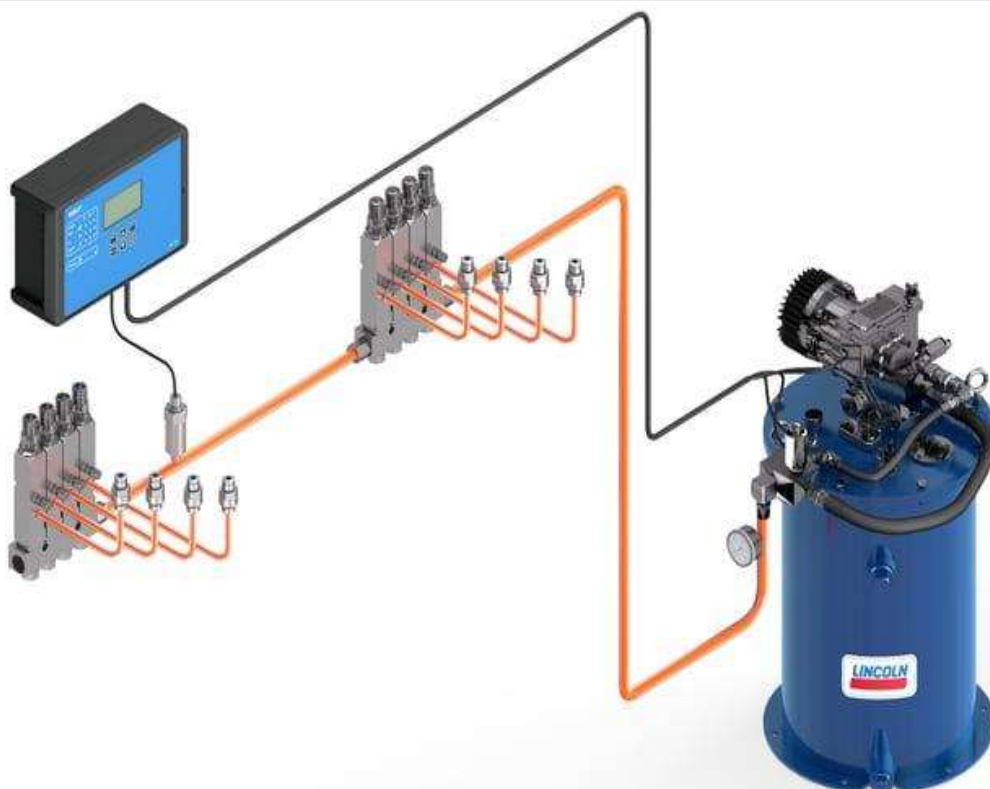

ST Hydraulics provides hydraulic hose assembly, crimping, testing, and system support services to keep equipment running with minimal downtime.

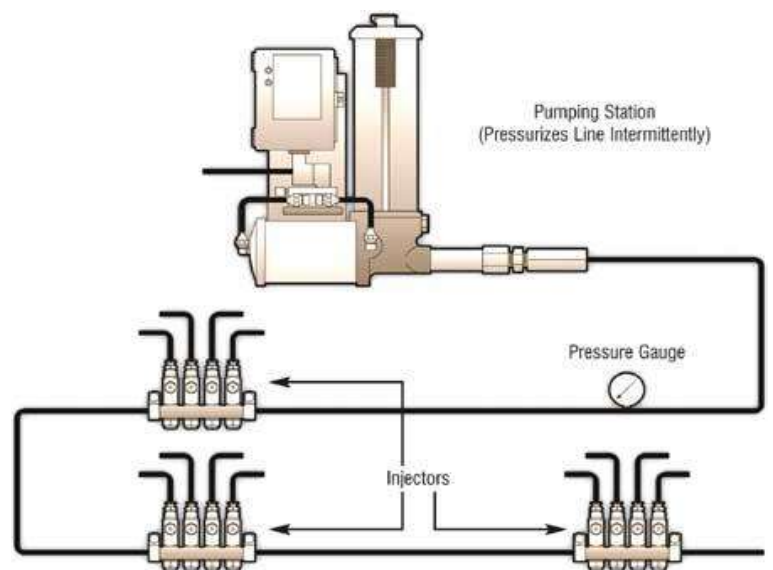

AUTO LUBRICATION SYSTEMS

Graco • Lincoln

Centralised and automated lubrication systems are designed to improve equipment reliability and reduce maintenance downtime.

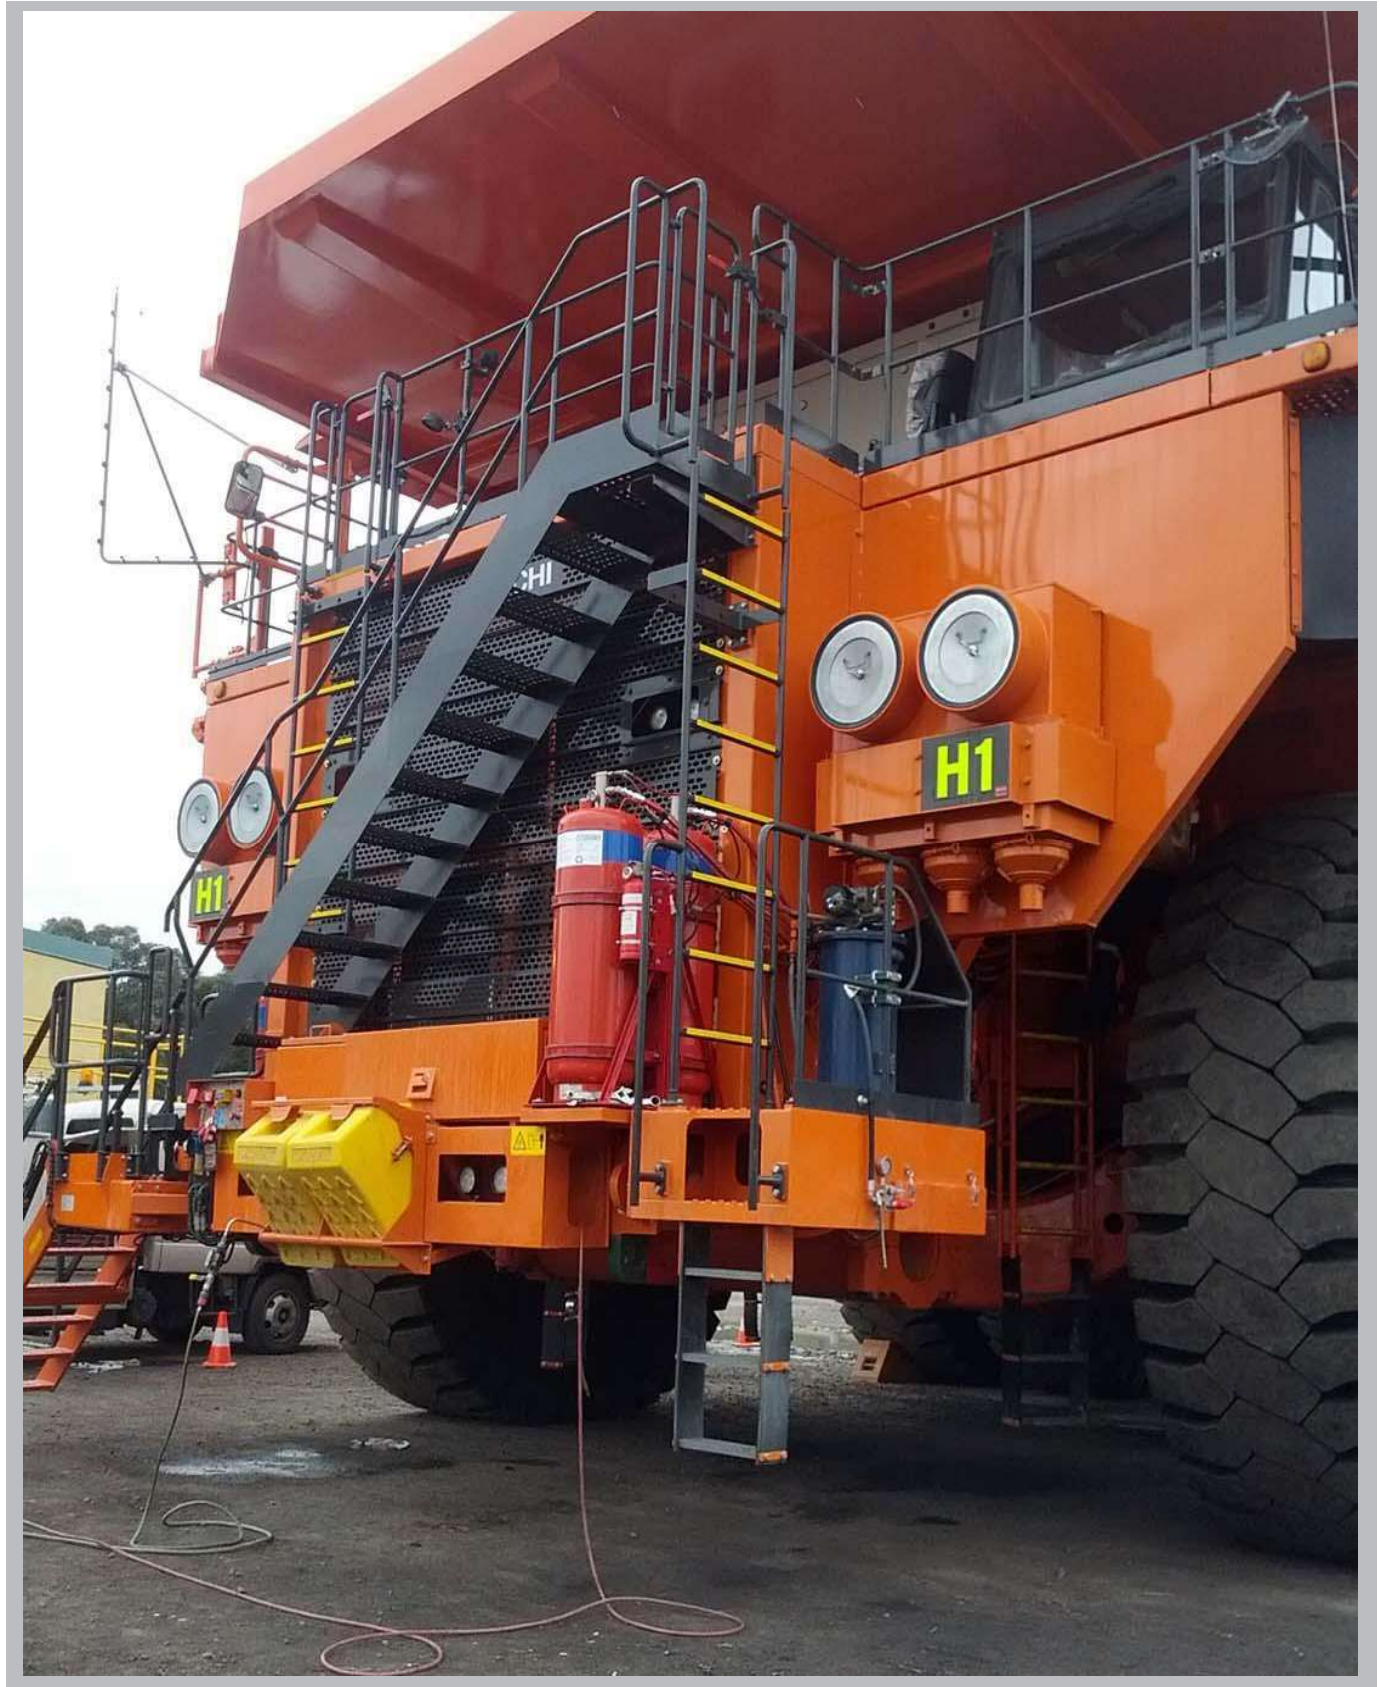

Automatic lubrication systems from Graco and **Lincoln** are engineered to deliver precise, consistent lubrication to critical machine components—improving uptime, reducing maintenance costs, and extending equipment life.

FIRE SUPPRESSION SYSTEMS

Certified fire protection systems and extinguishers for industrial, mining, and automotive applications.

PRI SAFETY – FIRE SUPPRESSION SYSTEMS

INDUSTRIAL APPLICATION SOLUTIONS

AFTER MARKET SPARE PARTS (SUPPORT PACKAGE)

Aftermarket spare parts are non-OEM components manufactured to replace original parts once equipment is out of warranty or where cost efficiency and availability are key considerations.

They are widely used across mining, transport, construction, and industrial fleets to control maintenance costs while maintaining acceptable performance.

Automotive & Fleet Parts

- Engine parts (filters, belts, gaskets)
- Brake pads, discs, drums
- Suspension components (shocks, bushings, ball joints)
- Steering parts (tie rods, racks)
- Electricals (alternators, starters, sensors)

Heavy-Duty & Mining Parts

- Truck & earthmoving consumables
- Undercarriage & wear parts
- Hydraulic hoses & fittings
- Bearings, seals & couplings

Industrial Parts

- Bearings & power transmission components
- Pumps & valves
- Belts & chains
- Fasteners & consumables

AFTERMARKET vs OEM (AT A GLANCE)

Aspect	Aftermarket Parts	OEM (Genuine) Parts
Cost	✓ Lower	✗ Higher
Availability	✓ Widely available	⚠ Sometimes limited
Quality range	⚠ Varies by brand	✓ Consistent
Warranty	⚠ Brand -specific	✓ OEM -backed
Best use	Cost control	Critical systems

Best practice:

- 👉 Use **OEM parts for critical systems**
- 👉 Use **high -quality aftermarket parts for wear & consumables**

TYRES

A tyre is a rubber covering, typically inflated or surrounding an inflated inner tube, placed around the wheel of a vehicle to form soft contact with the road.

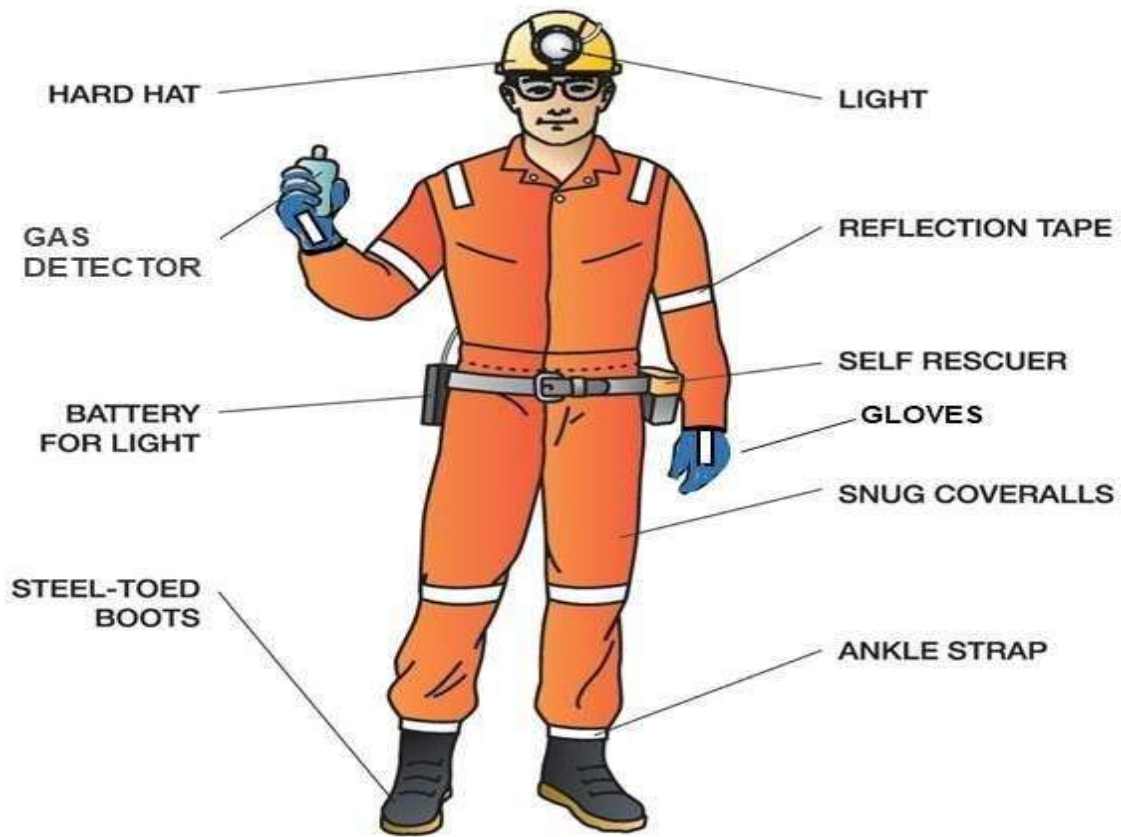

We stock and supply the Michelin, BF Goodrich and other brands.

PERSONAL PROTECTIVE EQUIPMENT (PPE)

Certified safety apparel and protective gear for industrial and site operations.

Purpose

Protects personnel from workplace hazards and ensures compliance with HSE and mining regulations.

Common PPE categories

- **Head protection:** Safety helmets, hard hats
- **Eye & face:** Safety goggles, face shields
- **Hand protection:** Cut-resistant, heat-resistant gloves
- **Footwear:** Steel-toe & composite safety boots
- **Body protection:** Reflective vests, coveralls
- **Respiratory:** Dust masks, respirators
- **Hearing:** Earplugs, earmuffs

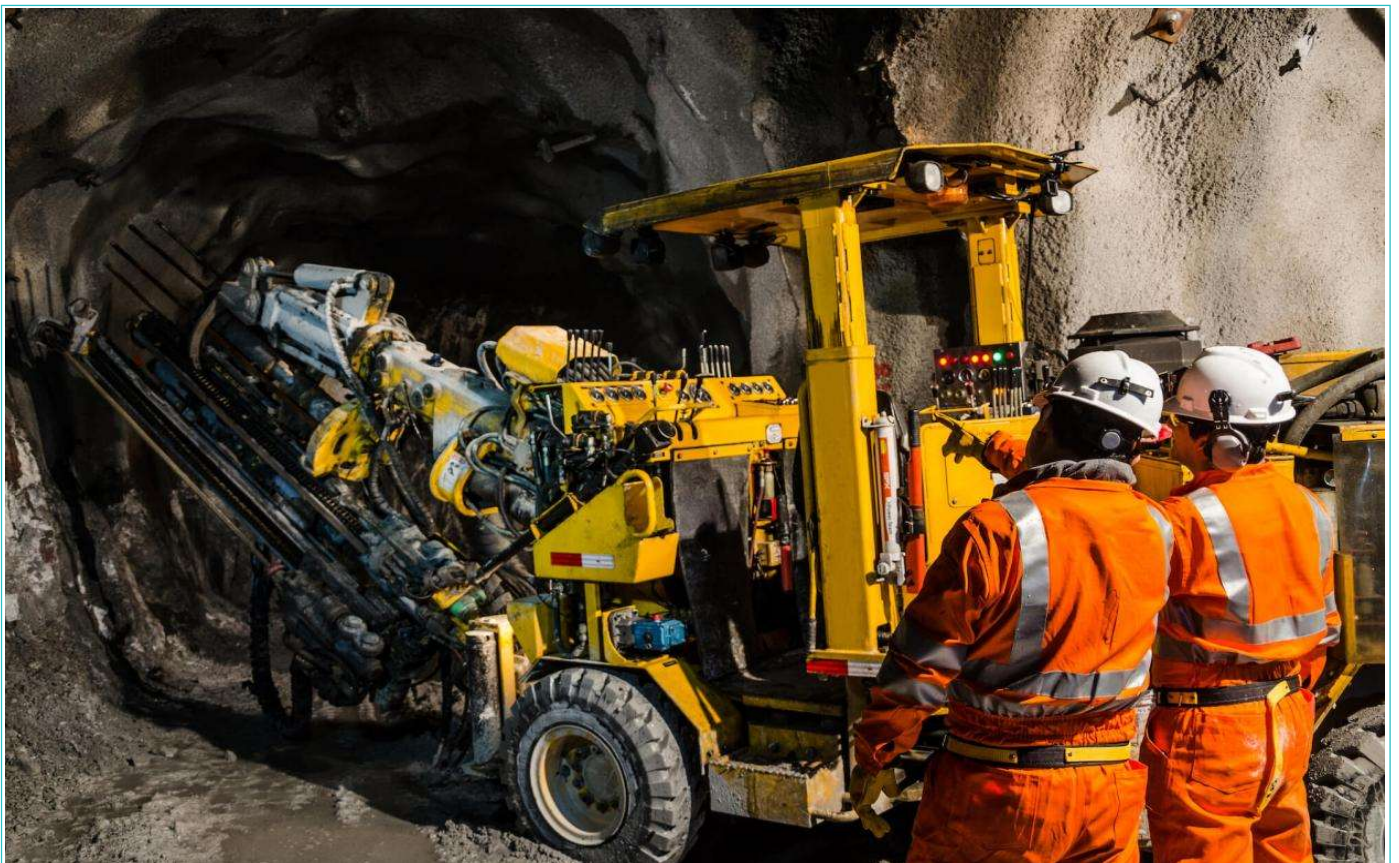

Why PPE matters

- Prevents injuries & fatalities
- Ensures regulatory compliance
- Improves workforce confidence & productivity
- Reduces incident-related downtime

INDUSTRIAL TOOLS

Quality tools and accessories for maintenance, workshop, and field operations.

VEHICLE ACCESSORIES

Functional and aesthetic accessories designed to enhance vehicle performance, safety, and comfort.

E K Bonsu Limited (EKBL) supplies a comprehensive range of high-quality aftermarket spare parts that provide reliable performance while helping clients control maintenance costs and maintain operational continuity—particularly for high-usage and ageing equipment.

SAFETY & PROTECTION ACCESSORIES

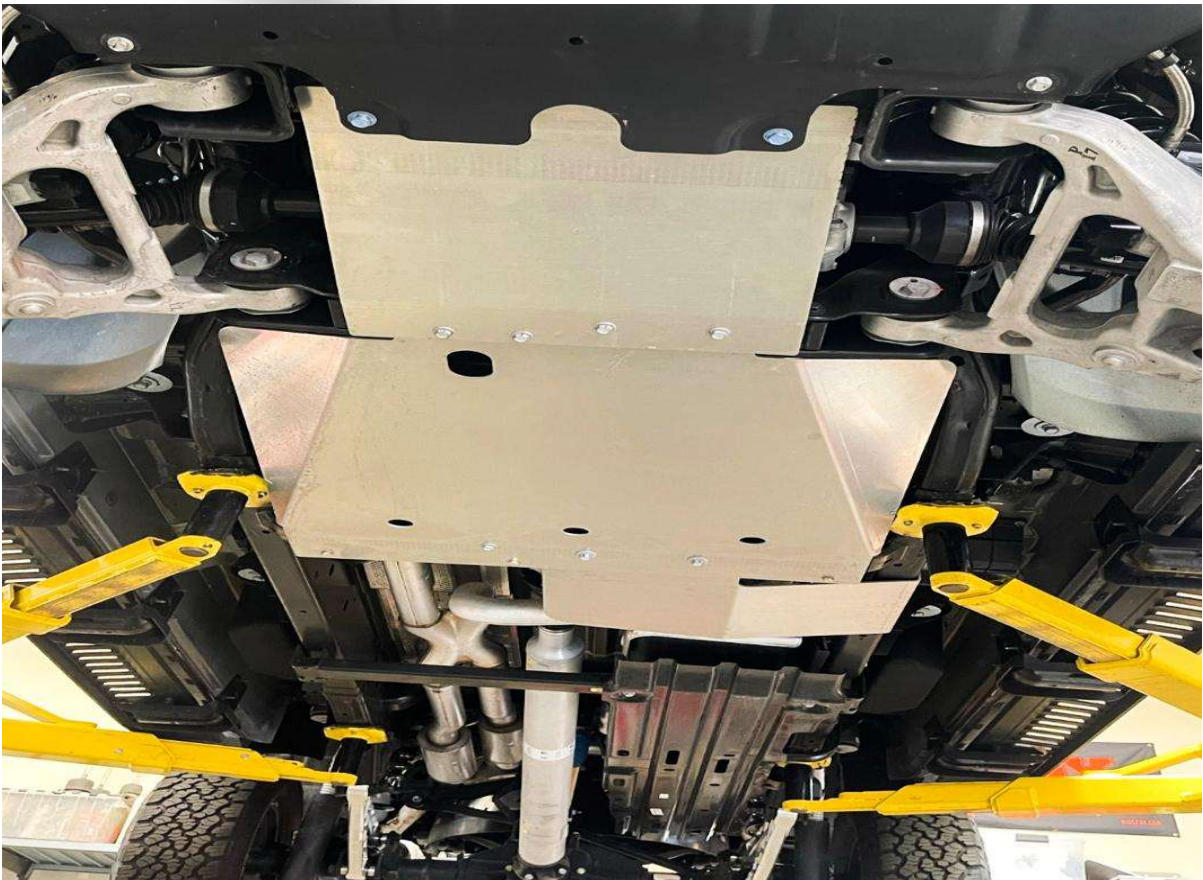

Key Accessories

- Bull bars & nudge bars
- Roll bars & side steps
- Skid plates / underbody protection
- Reverse alarms & warning buzzers
- Fire extinguishers & first-aid kits

Benefits

- Improved operator safety
- Protection against impact and terrain damage
- Compliance with mining & site HSE requirements

LIGHTING & VISIBILITY

Accessories

- LED light bars & work lights
- Rotating beacons & strobe lights
- Fog lamps & auxiliary headlights
- Reflective tapes & markings

Benefits

- Enhanced night and low-visibility operations
- Increased site safety
- Reduced accident risk

LOAD, STORAGE & UTILITY

Accessories

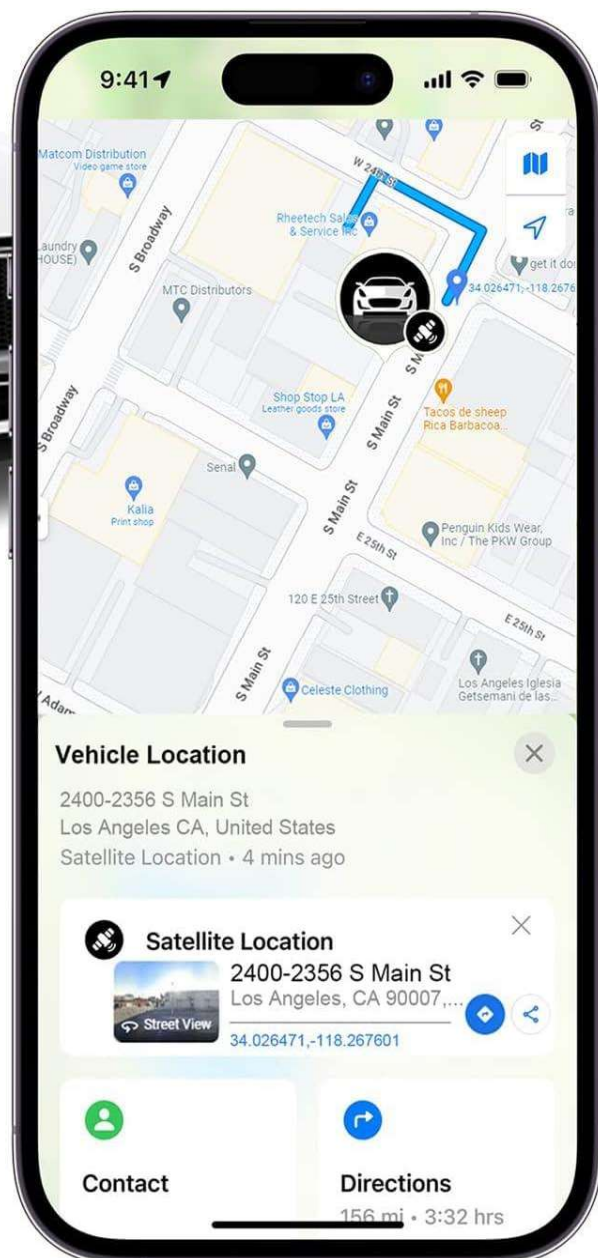

- Roof racks & cargo carriers
- Pickup canopies & tonneau covers
- Toolboxes & drawer systems
- Tow bars & recovery hooks

Benefits

- Better load management
- Improved vehicle organization
- Increased operational efficiency

INTERIOR, COMFORT & ELECTRICAL

Accessories

- Heavy-duty seat covers & floor mats
- Dash cameras & GPS tracking systems
- Inverters, USB chargers & power sockets
- Air-conditioning accessories

Benefits

- Improved driver comfort
- Fleet monitoring & security
- Reduced wear on vehicle interiors
